Topic: Recent Software Modifications

Michael Graham reviewed a comprehensive list of recent modifications to the Priority Consult software. Each attendee has the option to request these modifications. A list of modifications is attached.

- Additional upgrades discussed by attendees include the following:
 1. Create additional fields regarding 3rd party payers on the Patient Info tab.
 2. Upcoming testing dates in the Ongoing Care Coordination queue so Care Coordinators can better organize their patients.
 3. Change the name of the "Review Info" tab to "Review Summary."
 4. Moving the tobacco question to a later point in the Medical History tab.
 5. Adding automatic date/time/initial entries when a pop-up note is entered or when a letter/test request is assigned.
 6. Rearranging Care Coordination notes and pop-up box notes so that the move recent note is always at the top.
 7. Changing Care Coordination notes from a large text box to individual boxes per note and locking the text box to all edits once a note is entered.
